PROFILE SUMMARY

Senior Site Reliability Engineer, DevOps Engineer, and Platform Engineer with 15 years of experience across banking, financial services, e-commerce, insurance, information storage, and utility management domains. Specialized in cloud infrastructure, CI/CD, release management, production operations, observability, incident response, reliability engineering, and platform automation. Hands-on with AWS, Microsoft Azure, Kubernetes, Docker, Git, GitHub Actions, Octopus Deploy, Jenkins, Terraform, Chef, PowerShell, IIS, and IBM WebSphere. Skilled in Splunk, AppDynamics, Dynatrace, Amazon CloudWatch, and Grafana for dashboards, alerts, log analysis, SLA tracking, and service health monitoring. Experienced in SLO, SLI, SLA, RCA, post-incident reviews, vulnerability remediation, SSL certificate management, disaster recovery, resiliency testing, and 24x7 production support. Certified AWS Solutions Architect, Microsoft Azure Administrator, and ITIL V4 Foundation professional.

15 Years Experience

SRE & DevOps

AWS & Azure

CI/CD & Release

24x7 Production

PROFESSIONAL EXPERIENCE

Site Reliability / DevOps Engineer

JAN 2022 - PRESENT

Commonwealth Bank - CommBiz, IT Operations Senior Analyst (Australia)

Banking

CBA

CommBiz

- Coordinated production releases using Octopus Deploy, ACDC, ServiceNow change records, and controlled implementation plans.
- Supported AWS migration, cloud operations, application stability, and platform reliability for business-critical banking services.
- Built and maintained monitoring coverage using Splunk, AppDynamics, dashboards, alerts, and log analysis.
- Performed SSL certificate renewals, vulnerability remediation, Akamai traffic changes, and controlled production maintenance.
- Handled incident triage, smoke testing, resiliency testing, RCA support, and SLA-driven recovery activities.

Service Delivery Analyst / SRE

AUG 2021 - DEC 2021

FIS Global - Express SRO (USA)

Financial Services

FIS

- Deployed and supported applications in Azure Cloud environments.
- Monitored payment transactions and analyzed failed or fraud-related records across ATM, POS, and online gateways.
- Created monitoring alerts using Azure Monitor and Dynatrace.
- Handled high-priority incidents, log analysis, SQL jobs, and database support.

Senior Product Specialist / SRE

SEP 2018 - AUG 2021

Eurofins IT Solutions - EOL & OSO (USA)

E-commerce

Eurofins

- Managed application hosting and support on IIS and IBM WebSphere.
- Handled production deployments using Jenkins, Chef, Octopus, and standard release processes.
- Created and supported Azure VMs, cloud services, and MySQL databases; hosted new regional applications in IIS.
- Supported infrastructure setup, database administration, and environment refresh activities.
- Authored PowerShell scripts and incident reports for recurring operational tasks.

System Engineer - Application Management

FEB 2016 - SEP 2018

PORTFOLIO

RELIABILITY · CLOUD
CI/CD & OBSERVABILITY

DAY-TO-DAY ACTIVITIES

Production Releases	Octopus Deploy
Incident Response	Splunk Monitoring
Change Mgmt (ServiceNow)	RCA & Reviews
SSL & Vuln Remediation	Resiliency Testing
PowerShell Automation	24x7 Support

KEY ACHIEVEMENTS

- Star of the Month:** Awarded for ownership, consistent delivery, and reliable support of business-critical production applications.
- 24x7 Banking Ops:** Supported round-the-clock production operations with SLA-aligned incident response and service continuity.
- Controlled Releases:** Delivered planned and ad-hoc releases with controlled change implementation, smoke testing, and rollback readiness.
- Observability:** Improved visibility with dashboards, alerts, and log-based troubleshooting across application and infrastructure layers.
- Reliability:** Reduced repeat incidents through RCA, preventive actions, resiliency testing, and knowledge documentation.
- Multi-Cloud:** Delivered across AWS and Azure with migration, cloud operations, and platform reliability for enterprise workloads.

CLIENTS & EMPLOYERS

Commonwealth Bank	FIS Global
Eurofins	Iron Mountain
Morgan (via FIS)	IMFS

CORE SKILLS

CLOUD PLATFORMS - AWS (EC2, S3, RDS) - Route 53 & CloudWatch - Microsoft Azure - Azure VMs & Monitor - Cloud Migration - Cloud Operations	CI/CD & RELEASE - Octopus Deploy - Jenkins - GitHub Actions - ACDC - Release Automation - Deployment Pipelines	SRE & RELIABILITY - SLA / SLO / SLI - Incident Management - Root Cause Analysis - Change Management - Disaster Recovery - Resiliency Testing
OBSERVABILITY - Splunk - AppDynamics - Dynatrace - Amazon CloudWatch - Azure Monitor - Grafana - SolarWinds	CONTAINERS & CLOUD-NATIVE - Docker - Kubernetes - AKS - AWS Kubernetes - Containerized Deployments	IAC & AUTOMATION - Terraform - Chef - PowerShell - Runbook Automation - Configuration Mgmt
APP, WEB & DB - IIS - IBM WebSphere - SQL Server - MySQL - Oracle - F5 BIG-IP & Akamai	ITSM & TICKETING - ServiceNow - BMC Remedy - OTRS - Assyst - SSL & Cert Mgmt - Vulnerability Remediation	AI & DEVOPS TOOLS - GitHub Copilot - Claude - Roo Code - AI-assisted Troubleshooting - Git & GitHub

PROFESSIONAL TIMELINE

A journey across banking, financial services, and e-commerce - keeping business-critical platforms reliable.
